MULTI-SPORT PRO AQUATICS

DISPLAY PLAYER · AQUATICS EDITION

Swimming, diving and water polo from your timing system

Lane times and places from the timing console, names and results from Meet Manager, diving scores and a water polo board, in one player.

Clovis West High School: girls' 200 yard freestyle relay, heat 5, at the 2026 Clovis West Invitational, with the meet's own results.

Photo: the swim board at the Mt. SAC Aquatics Center, showing a heat's start list.

KEY FEATURES

Your timing console

Colorado Time Systems System 6 and Gen7 (serial or the Gen7 hub), Daktronics OmniSport 2000 (serial, TCP or UDP) and Swiss Timing.

Water polo

Game and shot clocks, score, period and exclusions, from a CTS MultiSport or the wireless table-top controller.

Broadcast feed

Spout on Windows or Syphon on macOS hands the board to a streaming or broadcast system.

Meet Manager and Dive Live

Swimmer names, results and start lists from Hy-Tek Meet Manager on the operator's keys; diving scores from Dive Live and OmniSport.

Pace clock

A full-wall pace clock for swim practice, with the minutes and the time of day under the seconds.

Coming from LedPlayer?

With LedPlayer compatibility, RocketEffects, Designer and ScoreBug drive Display Player as before, and .lay layouts import.

WHAT YOU GET

- Display Player built for your venue and locked to your PC
- A full layout set in your colors and logo, for each sport you play
- Operator manual (PDF), plus a venue guide on the player's Help page
- The remote support agent, installed on the booth PC
- Scoring app for iOS, Android and Windows tablets and phones

WHAT YOU NEED

- A Windows PC with DirectX 12 graphics; a dedicated graphics card for a large wall
- An LED processor (for example a NovaStar sending box) on an HDMI or DVI output, set as an extended display
- Your scoring console with its cable or wireless receiver
- A USB-serial adapter for a wired console, left in the same USB socket
- A venue network for phones and tablets; internet for remote support

MULTI-SPORT PRO AQUATICS

SPECIFICATIONS

SPORTS	Swimming, diving and water polo.
CONSOLES	Colorado Time Systems System 6 / Gen7 (serial 9600 or 115200; Gen7 hub), MultiSport and WTTC wireless table-top controller (water polo). Daktronics OmniSport 2000 (serial, TCP or UDP 4001). Swiss Timing (TCP or serial). To order: ALGE, Ares / IST, Quantum, Lynx ResulTV. Hy-Tek Meet Manager and Dive Live on the network.
BOARD SIZE	Canvas matched to the wall's pixel size, from 1170 × 122 ribbons to 1920 × 1080 boards and larger. 60 frames per second; 120 Hz option.
VIDEO OUTPUTS	Board window on any monitor output; a NovaStar processor is found automatically. Options: NDI, Blackmagic DeckLink, AJA, Matrox SDI and ST 2110, Spout (Windows), Syphon (macOS).
NOVASTAR	Finds the NovaStar output by its EDID and keeps the board on it. Remote support can scan for NovaStar processors and check the wall. Build options: processor page with cabinet layout, receiving-card monitoring and screen-file upload.
AUDIO	Clips with sound. Output follows the Windows default or a pinned device; master volume is remembered. Game horn and shot-clock buzzer sounds, each with a test button.
RUNS ON	Windows (DirectX 12). Gen7 and multi-console builds also on macOS (Metal).
NETWORK	Control pages in any browser on the venue network; scoring apps find the player by mDNS and UDP discovery; optional PIN. Remote support needs an internet connection.
CONTENT IMPORT	Build options: Designer / LedPlayer .lay (one file, many, or a folder), Photoshop .psd, Daktronics .vmpl, DisplayLink+ .tpl. LedPlayer compatibility lets RocketEffects, Designer and ScoreBug drive the player.
LICENSING	One build per venue, locked to its PC (name, network adapter, machine ID, disk serial). Spare PCs by arrangement; Sentinel or WIBU key optional. A copy on another PC runs as an evaluation copy.
REMOTE SUPPORT	Screenshots, logs, serial-port checks and player updates with automatic roll-back. It asks before stopping a running show.

TYPICAL SYSTEM

ORDERING

- Display Player Aquatics Edition, one venue, one PC
- Additional PC on the same build (spare or second booth)
- Optional video outputs (NDI, SDI, ST 2110)
- Hardware license key (Sentinel or WIBU), if required
- Remote support and updates (term)

CONTACT US FOR PRICING 321-747-3220 sales@olympianled.com

TO ORDER, SEND US

- Venue name, sports, and the console make and model
- The LED wall's pixel size (width × height)
- Your logo and colors
- The booth PC's System Information file (for the machine lock), and any spare PC
