MULTI-SPORT PRO FOOTBALL

DISPLAY PLAYER · FOOTBALL EDITION

A full football video board, live from the console

Score, clock, down and distance, ball on, possession and timeouts come straight from the console, with clips and sponsors around them.

A. H. Parker High School's football board, its own 2024 layout, against James Clemens.

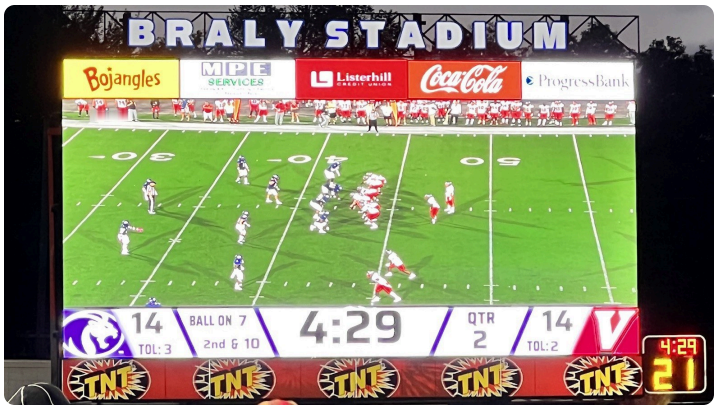

Photo: the video board at Braly Stadium, Florence, Alabama, during a night game.

KEY FEATURES

Every football field on the board

Down and distance, ball on, possession, play clock, quarter and timeouts left, each bound to the live console data.

Touchdown moments

Score-driven triggers fire a clip or swap the layout on a score, a quarter change or the clock reaching zero.

Schedule and rosters

Season schedule and team rosters, with MaxPreps import. The schedule puts the visitor's logo on the board on game day.

Fair-Play built in, others to order

MP-70 (RS-232), MP-80 wireless and the board's RS-485 feed as standard. To order: Daktronics All Sport 5000 and All Sport Pro, OES, Sportzcast SCOREBOT, Electro-Mech.

Sponsors and takeovers

Sponsor ad groups rotate on the board; a takeover layout fills the wall between plays.

Coming from LedPlayer?

With LedPlayer compatibility, RocketEffects, Designer and ScoreBug drive Display Player as before, and .lay layouts import.

WHAT YOU GET

- Display Player built for your venue and locked to your PC
- A full layout set in your colors and logo, for each sport you play
- Operator manual (PDF), plus a venue guide on the player's Help page
- The remote support agent, installed on the booth PC
- Scoring app for iOS, Android and Windows tablets and phones

WHAT YOU NEED

- A Windows PC with DirectX 12 graphics; a dedicated graphics card for a large wall
- An LED processor (for example a NovaStar sending box) on an HDMI or DVI output, set as an extended display
- Your scoring console with its cable or wireless receiver
- A USB-serial adapter for a wired console, left in the same USB socket
- A venue network for phones and tablets; internet for remote support

MULTI-SPORT PRO FOOTBALL

SPECIFICATIONS

SPORTS	Football. The same build family also carries soccer, lacrosse, hockey, basketball, volleyball and baseball on request.
CONSOLES	Standard: Fair-Play MP-70 (RS-232, 9600), MP-80 wireless (57600), board RS-485 feed (57600). To order: Daktronics All Sport 5000 RTD (serial 19200 or UDP), Daktronics All Sport Pro, OES (serial), Sportzcast SCOREBOT (TCP), Electro-Mech (Laird wireless or RS-232). Scoring app and on-screen manual controls with no console.
BOARD SIZE	Canvas matched to the wall's pixel size, from 1170 × 122 ribbons to 1920 × 1080 boards and larger. 60 frames per second; 120 Hz option.
VIDEO OUTPUTS	Board window on any monitor output; a NovaStar processor is found automatically. Options: NDI, Blackmagic DeckLink, AJA, Matrox SDI and ST 2110, Spout (Windows), Syphon (macOS).
NOVASTAR	Finds the NovaStar output by its EDID and keeps the board on it. Remote support can scan for NovaStar processors and check the wall. Build options: processor page with cabinet layout, receiving-card monitoring and screen-file upload.
AUDIO	Clips with sound. Output follows the Windows default or a pinned device; master volume is remembered. Game horn and shot-clock buzzer sounds, each with a test button.
RUNS ON	Windows PC with DirectX 12 graphics.
NETWORK	Control pages in any browser on the venue network; scoring apps find the player by mDNS and UDP discovery; optional PIN. Remote support needs an internet connection.
CONTENT IMPORT	Build options: Designer / LedPlayer .lay (one file, many, or a folder), Photoshop .psd, Daktronics .vmpl, DisplayLink+ .tpl. LedPlayer compatibility lets RocketEffects, Designer and ScoreBug drive the player.
LICENSING	One build per venue, locked to its PC (name, network adapter, machine ID, disk serial). Spare PCs by arrangement; Sentinel or WIBU key optional. A copy on another PC runs as an evaluation copy.
REMOTE SUPPORT	Screenshots, logs, serial-port checks and player updates with automatic roll-back. It asks before stopping a running show.

TYPICAL SYSTEM

ORDERING

- Display Player Football Edition, one venue, one PC
- Additional PC on the same build (spare or second booth)
- Optional video outputs (NDI, SDI, ST 2110)
- Hardware license key (Sentinel or WIBU), if required
- Remote support and updates (term)

CONTACT US FOR PRICING 321-747-3220 sales@olympianled.com

TO ORDER, SEND US

- Venue name, sports, and the console make and model
- The LED wall's pixel size (width × height)
- Your logo and colors
- The booth PC's System Information file (for the machine lock), and any spare PC
